About Me

I am a passionate web developer with the ability to translate creative UI designs into functional websites. I have a strong proficiency in building high-quality outputs and I am eager to contribute my expertise and drive innovation in a collaborative work environment.

Experience

Wavelabs Technologies - 6 months

Internship

Worked on skills with Unity development, Python programming, Docker and Docker Compose containerization, Influx DB, Grafana data visualization, and Digital Twin implementation.

Freelancing and Open Sources

Part Time

Got an opportunity to worked as a freelancer on developing and publishing web pages, and also contributed my work across some open sources.
